3. Account Objectives and Investor Profile for This Account

Please ensure that your investment instructions accurately reflect your [investment objectives](#) and [risk tolerance](#). Risk tolerance is the amount of volatility that you can accept in your investments, and is reflected in the expected percentage of your account that you will hold in funds in each risk category. We will use your risk tolerance in conjunction with your account application information to determine if the asset allocation in your account is appropriate. Steadyhand's equity funds are growth oriented (geared towards capital gains) and may not be a reliable income source of interest or dividends.
